Press Release

MecSoft Announces Compatibility with Windows 8

Irvine, CA, January 23, 2013: [MecSoft Corporation](#), the developer of computer aided manufacturing (CAM) software solutions, has announced that all of its flagship CAM products are compatible with Microsoft's latest operating system, Windows 8.

"We've thoroughly tested MecSoft's CAM products to ensure that they operate flawlessly with the Windows 8 Operating System," stated Uday Honnalagere, Support Manager for MecSoft Corporation. "From installing the product, to actually running it, everything works as designed. As for our CAM plug-ins (Alibre CAM, RhinoCAM, and VisualMILL for SolidWorks) as long as their CAD host system is Windows 8 compatible, our CAM plug-ins will work without any glitches.

MecSoft continues to deliver on their commitment to always provide software that is compatible with the latest Microsoft operating systems, as well as the latest releases of the CAD systems that their software plugs into.

About MecSoft Corporation
