MecSoft releases Solidworks Compatibility Pack

FOR IMMEDIATE RELEASE

Irvine, CA – Dec 2008: **MecSoft Corporation**, developer of **VisualCAM and VisualMILL** announces a compatibility pack for SolidWorks® from Dassault Systèmes SolidWorks Corp.. This pack includes two separate modules, an add-in application for Solidworks and a SolidWorks part (.sldprt) file translator for VisualCAM/VisualMILL.

Features of this pack are as follows:

1. Add-in module for SolidWorks
 - a. Allows the export of all part file geometry to VisualCAM
 - b. Allows the export of selected part file geometry to VisualCAM
 - c. Hosted completely inside of Solidworks
 - d. Allows users to set various options to control the output
 - e. Launches VisualCAM automatically and loads geometry
 - f. Runs inside SolidWorks 2007, 2008 and 2009 versions
2. SolidWorks part file translator for VisualCAM/VisualMILL
 - a. Allows import of .sldprt files into VisualCAM/VisualMILL
 - b. Compatible with SolidWorks 2007, 2008 and 2009 versions

This module is available to VisualCAM/VisualMILL customers for immediate download and is priced at \$500.

The compatibility pack is available for download on the MecSoft Corporation's website.

About MecSoft Corporation
